Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS

- "I find it difficult to start conversations at networking events."
- "I want to make professional connections with industry experts."
- "I need personalized conversation starters based on my skills and interests."

THINKS

- "I need personalized conversation starters based on my skills and interests."
- "How can I confidently approach professionals?"
- "I want to build a strong professional network for my career."
